

This guide will show you how to find and download the Office365 mobile apps that you are entitled to use with your school account

App Store

1. First open your store applications. Android users will probably use the google play store.

2. Select Search and type Microsoft.

3. The apps pictured below are all usable with your school account's access to Office 365! Just sign into one or more of the apps using your school email address and password and you will be able to access, create, and manipulate your school related files using your smartphone.
